EDUCATION

- BMS College of Engineering** 2026
Bachelor of Engineering CGPA/Percentage: 9.89
- Class 12** 2022
Karnataka Secondary Education Examination Board, Karnataka CGPA/Percentage: 95.16
- Class 10** 2020
Karnataka Secondary Education Examination Board, Karnataka CGPA/Percentage: 98.56

EXPERIENCE

- Oracle** June 2025 – August 2025
SDE Intern Bengaluru
 - Designed and deployed an automated error-analysis pipeline for the internal service by parsing log files and proactively reporting issues to developers.
 - Built a production-ready Slackbot that accepts file uploads, maintains user-specific context, and answers queries using threaded conversations enhancing debugging efficiency for thousands of developers.
- Samsung Research and Development** February 2025 – September 2025
Research Intern Bengaluru
 - Built “**Screen QnAI on TV**”, an AI agent answering user queries based on on-screen content with maintaining context.
 - Achieved 90%+ accuracy in real-time actor, location, and object recognition using Vision-Language models.
- College Fest Website Development** October 2024 – December 2024
Backend Developer BMS College of Engineering
 - Built backend for merchandise portal using MERN stack; handled 6000+ registrations smoothly.
 - Automated data workflows via Google Sheets and APIs, reducing manual effort.

PROJECTS

- Nologin - Anonymous File Sharing Platform**
Built and deployed www.nologin.in, a secure, login-free file sharing platform with full anonymity and privacy at its core.
 - Tools & technologies used: React, Firebase, Firestore.
 - Shipped features like link expiry timers, password-protected files, and fully anonymous uploads — no logins, no traces.
 - 100K+ views and 12K+ active users from 60+ countries, 138K+ events, 100+ organic clicks/day (Nov 24 – Jun 25).
- Geo-Crisis - Real-time Mapping Tool**
Designed and developed Geo-Crisis, a real-time mapping tool to visualize crisis data for governments and the public.
 - Tools & technologies used: NodeJS, Leaflet, OpenStreetMap, APIs for data aggregation, AI chatbot.
 - Collaborated with teammates to implement location-based alerts, AI chatbot guidance, and emergency service mapping. Aggregated real-time crisis data and visualized it on interactive maps, simplifying decision-making during emergencies.

TECHNICAL SKILLS AND INTERESTS

Technical Skills: React.js, Node.js, JavaScript, Express.js, SpringBoot, MongoDB, Firebase, Java, C++, CSS, Python, PostgreSQL, Git and GitHub, CV, Deep Learning
Soft Skills: Communication, Teamwork, Problem-solving, Time Management, Adaptability
Hobbies: Drawing, Singing, Coding

POSITIONS OF RESPONSIBILITY

- Financial Head**, Pentagonam, Mathematical Society of BMSCE Oct 2024 – Present
–Managed the financial aspects of the society, including budgeting and allocation of resources for various events.

ACHIEVEMENTS

- ICPC Regionalist 2024**Secured AIR 37 in ACM ICPC 2024 Regionals.
- Finalist, Code for Good (2024, 2025)**Reached final round in JP Morgan’s CFG hackathon for 2 consecutive years.
- Finalist, HackOn with Amazon 5.0**Selected among top 9 teams out of 52,000+ participants.
- LeetCode**Solved 1000+ problems; Knight badge holder with peak rating of 2094.
- CodeChef**4-Star; peak rating 1919 with 200+ problems solved.
- CodeForces**Specialist; peak rating 1497 with 300+ problems solved.
