CAREER OBJECTIVE

Information Science undergraduate at BMSCE with skills in Python, Java, C++, and web development. Passionate about software development and networking, seeking opportunities to apply problem-solving skills and contribute to impactful engineering solutions.

EDUCATION

BMS College of Engineering	2023 - 2027
<i>Bachelor of Engineering in Information Science</i>	<i>CGPA: 8.09/10</i>

PROJECTS

ML-Based Identification of Cardiovascular Pathways in PCOS <i>Python, Scikit-learn, Pandas</i>	2025
- Analyzed metabolomics data of women with PCOS to identify cardiovascular-risk pathways using machine learning. - Performed data preprocessing, feature engineering, and exploratory data analysis on amino acid profiles. - Evaluated model performance to identify cardiovascular risk patterns.	
Invoice Scanner and Automated Expense Analyzer <i>Python, SQLite, Flask, Tesseract OCR</i>	2025
- Built a Python application to extract invoice data and automate expense categorization. - Implemented data processing pipelines to streamline invoice analysis and reduce manual effort. - Generated expense summaries for financial reporting and analysis.	

PUBLICATIONS

Machine Learning Analysis for Cardiovascular Risk Prediction in PCOS	2026
<i>IEEE World Conference on Computational Science and Technology (WcCST)</i>	
<i>DOI: 10.1109/WcCST67302.2026.11495644</i>	

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++
Databases: MySQL, MongoDB
Web Development: HTML, CSS, JavaScript
Tools & Platforms: Git, GitHub, VS Code
Core Concepts: Data Structures, Object-Oriented Programming, Operating Systems, Computer Networks, Machine Learning

CERTIFICATIONS

Google Cloud Career Launchpad – Cloud Engineer Track	May 2026
<i>Google Cloud Learning Services</i>	
- Completed hands-on courses and labs covering Google Cloud infrastructure, networking, storage, and compute services. - Developed foundational cloud engineering skills, including cloud deployment, resource management, and cloud operations.	
Nutanix Certified Associate 6	April 2026
<i>Nutanix</i>	
- Demonstrated knowledge of hyperconverged infrastructure, cloud computing concepts, and Nutanix platform administration. - Validated understanding of virtualization, storage, and networking fundamentals in enterprise environments.
