

PRAJWIN FLOYD RODRIGUES

Basavanagudi, Bangalore — prajwinfloyd.is23@bmsce.ac.in —  github.com/PrajwinRodrigues

Summary

Aspiring Software Engineer with a strong foundation in C, C++, Python, and JavaScript. Passionate about backend development, databases, and system programming. Hands-on experience with MySQL, Flask, and HTML/CSS. Solved 100+ LeetCode problems and actively learning Machine Learning and Data Science. Strong problem-solving mindset with proven academic excellence (CGPA 9.7).

Education

B.E., Information Science & Engineering

Expected Jul 2027

BMS College of Engineering, Bangalore

CGPA: 9.7/10

Pre-University — St. Aloysius PU College, Mangalore

97%

High School — St. Aloysius High School, Mangalore

96.9%

Technical Skills

Languages: C, C++, Python, Java (Learning), JavaScript

Web & Backend: HTML, CSS, Flask, MySQL, MongoDB (Learning)

System Programming: Unix System Programming, Shell Scripting

Problem Solving: Data Structures & Algorithms (100+ LeetCode problems)

Tools & Methods: Git/GitHub, Agile/Scrum

Currently Learning: Machine Learning, Data Science

Projects

Local Deals & Offers Web App

HTML, CSS, Flask, MySQL

- Built a responsive platform to display local offers and discounts from various businesses, enabling easy navigation for users.
- Integrated Flask backend with MySQL for dynamic content updates and implemented CRUD functionalities for merchants.
- Added user authentication, search filters, and pagination for improved usability and scalability.
- Optimized SQL queries and backend endpoints to reduce page load time by over 30%.

Dynamic Sorted Linked List

C++

- Implemented a linked list maintaining sorted order on insertion; optimized pointer logic for efficient inserts.

Student Database Management System

Python, MySQL

- Developed CRUD operations with user authentication and efficient query execution.

Certifications

Deloitte Virtual Internship — Data Analytics

Data cleaning, dashboarding, and business recommendation workflows.

Achievements & Interests

Interests: AI/ML, Data Analytics, System Programming, OS Development
